

# FONTAINE SHAN

## Technical Data Sheet

Product Code:	FScore 151
Product Name:	oligo 【2-hydroxy-2-methyl-1-(4-(1-methylvinyl)phenyl)propanone】 and 2-Hydroxy-2-methyl-1-phenyl-1-propanone
Performance Properties:	It is used for UV curable systems such as clear lacquers for wood, plastic, paper, metal and optical fibers, coatings for flooring and printing inks. Offers high reactivity, non- yellowing properties, no migration and low odor.
Chemical Structure:	
Typical Application:	Coatings for graphic arts, wood , plastics metals. Flexo ,screen,litho, dry offset inks and adhesives.
<b>Item</b>	<b>Specification</b>
Appearance	Off white powder
Assay	90% Min.
